

NORTH COUNTY CHRISTIAN SCHOOL

International Student Housing Agreement

This document served as an agreement between the parents of an international student and North County Christian School.

North County Christian School provides housing for an international student by securing a host family from within the school community. Placing the international student in the appropriate host family home is the decision of NCCS Administration. Careful consideration is given when deciding the placement of an international student and host family. NCCS Administration is responsible for communicating placement decisions to the family of the international student and the host family. Living arrangements are coordinated with the expectation that the international student will live with the host family for the entire school year.

International students should anticipate a time of transition when first moving into the host family home. New surroundings, culture, lifestyle, responsibilities, and other reasons can cause some stress on the relationship between the international student and the host family. These are not to be considered reasons for moving to a new home. The ISP Coordinator is available to assist the international student and host family in making these adjustments and finding harmony in the home.

If the international student and/or host family believe a change in the living arrangements is necessary due to irreconcilable circumstances, the student and/or the host family should present their reasons to the The ISP Coordinator. It is the responsibility of the Director of International Programs to investigate the situation and determine if a new host home is the appropriate next step.

If the The ISP Coordinator determines that a new host family is in the best interest of the international student, she will secure a new host family and communicate these changes to the host family, the international student, the parents of the international student, and the school. Moving from one host family to another will take place at the end of first semester and at the discretion of the hosting families.

Under no circumstances should the international student seek a new host family and/or move into a new host family home without the express permission of the ISP Coordinator

I (We) have read the above statement and agree to abide by it. I (We) understand failure to comply with this agreement could result in my son or daughter's dismissal from North County Christian School.
